

Mr. Nobuyuki Miura

2017-present Director General of Nuclear Fuel Cycle Engineering Laboratories.

2015-2017 Director of Tokai Reprocessing Technology Development Center.

2014-2015 Director of Technology Development Department.

2011-2014 Director of Vitrification Technology Development Department, Tokai Reprocessing Technology Development Center, Nuclear Fuel Cycle Engineering Laboratories, Japan Atomic Energy Agency (JAEA).

2009-2011 Technical support on commissioning of the vitrification facility of Rokkasyo Reprocessing Plant.

1983-2009 Engineer of Tokai Reprocessing Plant, Tokai Works, PNC (Power Reactor and Nuclear Fuel Development Corporation). Operation management of chemical process, Basic design of Rokkasyo Reprocessing Plant and Administration and Planning of facility operation. (1993-1994) Study on NDA of nuclear material as a visiting scientist of LANL (Los Alamos National Laboratory).
